PROFESSIONAL PROFILE

Frontend & UI Developer with 8+ months of professional experience engineering scalable MERN stack and Remix-based SaaS enterprise applications. Specialized in JavaScript (ES6+), React.js, TypeScript and jQuery, with a core focus on Component-Driven Development using shadcn/ui, Tailwind, and SASS to translate complex Figma prototypes into pixel-perfect, highly responsive, and accessible (WCAG) user-centric interfaces. Experienced in collaborating within fast-paced Agile/Scrum environments and possessing a proven track record of optimizing Core Web Vitals to drive client-based applications business outcomes in dynamic technology ecosystems.

TECHNICAL STACK

Core Tech : HTML5, jQuery, JavaScript (ES6+), React.js, TypeScript, Remix, Node.js, Express.js, MongoDB
UI & Design : Tailwind, CSS3, SCSS, shadcn/ui, Figma
Tools : Redux Toolkit, Vite, Git/GitHub Actions (CI/CD), REST APIs, Postman, Jira
Specialties : Core Web Vitals, Responsive Web Design, WCAG Accessibility, Cross-Env Setup, Micro-Frontends
UX & Product : Wireframing, User Flow Design, Information Architecture, Typography

WORK EXPERIENCE

Round Logics, Chennai

Apr 2026

Frontend Developer Intern

- **Full-Stack SaaS Architecture:** Engineered and scaled production-ready MERN stack and Remix-based enterprise platforms Web UI—boosting data transit performance by 45% through optimized Node.js/Express REST APIs ensuring 100% cross-browser compatibility and secure JWT authentication.
- **Component-Driven UI/UX & Accessibility:** Translated complex Figma prototypes into pixel-perfect, highly responsive layouts using React.js, TypeScript, Tailwind CSS, and shadcn/ui; reduced UI load times by 30% by prioritizing Core Web Vitals and strict WCAG accessibility standards.
- **DevOps Infrastructure & Multi-Env Setup:** Slashed manual deployment overhead by 70% by architecting automated CI/CD pipelines via GitHub Actions and Docker across AWS (S3/CloudFront/Beanstalk), Vercel, and Render, while maintaining strict, dynamic .env configurations for Dev, UAT, and Production environments.
- **Agile Product Delivery:** Collaborated with cross-functional teams (Design, QA, Backend) to Successfully delivered over 10 feature-rich client-based applications execute end-to-end technical solutions within tight production deadlines ([Round Logics](#)).

Swipewire Technology pvt.ltd, Chennai

Mar 2024 - Present

Hospitality Executive

- Managing day-to-day hospitality operations, employee accommodation coordination, billing processes, vendor management, and support services within the organization.
- Demonstrating strong multitasking, communication, problem-solving, and coordination skills while working in a fast-paced corporate environment alongside continuous self-learning in frontend and MERN development.

PROJECT WORK

- **NemSchools Web UI (Live Project 2026):** Engineered core responsive modules (Admission, Gallery, News, Career, Contact, Footer) using React.js/Remix and dynamic Strapi API integration; implemented multi-env .env setups (Dev, UAT, Production) [nemschools.com](#) and followed Agile/Scrum workflows to deliver an intuitive, SEO-friendly, and optimized user interface. [Live Platform](#)
- **Gaming BetWallet Dashboard (2026):** Developed a responsive fintech payment gateway. [GitHub](#) | [Live Demo](#)
- **React Router CMS Feedback Platform (2026):** Built a modern React Router v7 shadcn/ui [GitHub](#) | [Live Demo](#)
- **Client Hub – CRM (SaaS) (2025):** Engineered a scalable next-generation SaaS-based CRM platform using the MERN stack, delivering responsive UI/UX and user-centric experiences for client management, sales workflows, meeting tracking & support operations. And responsive dashboard interfaces. Currently expanding the platform with multi-tenant SaaS capabilities and AI-powered business insights. [GitHub](#) | [Live Demo](#)
- **Login & Registration System (2025):** Developed a secure full-stack authentication application using React.js, Node.js, Express.js, and MongoDB Atlas, featuring JWT-based authentication, protected routes, password encryption, cross-browser REST APIs, and cloud deployment through Vercel and Render.
