

ARIVALAGAN SANKAR

FRONTEND / UI DEVELOPER | REACT.JS

Chennai, Tamil Nadu, India | arivalagansankar.dev@gmail.com | +91-8220151020

Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Frontend-focused Software Trainee with 1.9+ years of hands-on frontend/software development experience building production-ready, responsive web applications using React.js, JavaScript (ES6+), TypeScript, HTML5, and CSS3. Experienced in translating Figma and UI designs into scalable, accessible interfaces with reusable components, REST API integration, responsive/mobile-first design, and performance optimization.

Contributed to 6 live client projects, with 4 successfully deployed to production, collaborating with UI/UX designers, backend developers, DevOps teams, and QA teams through Git-based workflows, testing, and Agile/Scrum practices. Experienced across Fintech, SaaS, Education, and client-facing web applications, with additional full-stack development exposure.

EXPERIENCES

- Software Trainee | Frontend / Full-Stack Development (Remote)

June 2025 - Present

CHENNAI, INDIA

Round Logics

 - Contributed to 6 live client projects across the software development lifecycle, with 4 successfully deployed to production, building responsive and production-ready frontend features using React.js, TypeScript, Redux Toolkit, Remix, SCSS, Tailwind CSS, shadcn/ui, and GSAP while translating Figma and Adobe XD designs into accessible, user-focused interfaces.
 - Implemented reusable component-driven architecture, Redux Toolkit state management, custom hooks, authentication workflows & REST API integrations while ensuring cross-browser compatibility and WCAG accessibility standards.
 - Improved application performance across Development, UAT, and Production through Core Web Vitals optimization, code splitting, lazy loading, semantic HTML, SEO-friendly, responsive/mobile-first design, and optimized frontend rendering.
 - Collaborated with UI/UX designers, backend, DevOps & QA teams in Agile/Scrum environments, contributing to Git workflows, pull requests, code reviews, Postman API validation, testing, and CI/CD deployment pipelines using GitHub Actions.
- MERN Full-Stack Developer Intern | Remote

Dec 2024 - June 2025

CHENNAI, INDIA

Round Logics

 - Collaborated with Team Leads, designers, and developers on client applications across Fintech, Betting, E-commerce, and SaaS, contributing to requirement analysis, sprint planning, feature development, and timely delivery.
 - Built responsive, component-driven interfaces using HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS, GSAP, translating Figma designs into accessible, mobile-friendly user experiences with interactive motion and visual effects.
 - Developed REST APIs using Node.js, Express.js, and MongoDB, implementing JWT authentication, CRUD operations, secure data handling, and frontend-backend integrations while gaining hands-on full-stack development experience.
 - Worked across the software development lifecycle, including Figma handoff, API integration using Fetch/Axios, state management, Postman testing, Git pull requests, code reviews, and deployments using Vercel and Render, with a focus on responsive design, performance, and production-ready feature delivery within tight deadlines.
- Hospitality Executive (Full-Time / Onsite)

Mar 2024 - Present

CHENNAI, INDIA

Swipewire Technology pvt.ltd

 - Manage day-to-day hospitality operations, employee accommodation coordination, billing and invoicing processes, vendor management, and internal support services within a fast-paced corporate environment.
 - Coordinate with employees, vendors, finance team & internal teams to resolve operational issues, manage multiple priorities, and maintain timely and effective service delivery, strengthening communication, problem-solving, and organizational skills.

CLIENT PROJECTS (REMOTE)

- Maanasa Temple Arch (Live Jul-2026) — Temple Architecture & Construction Company Website

GitHub | Live Demo

Skills Used: React.js, Remix, TypeScript, SCSS, REST/CMS Integration, Responsive Design, SEO

 - Rebuilt and enhanced Home, About, Services, Portfolio, and Contact experiences using React.js, Remix, TypeScript, and SCSS Modules, with reusable components, modular architecture, dynamic routing, responsive layouts, interactive SVGs, accessibility, shared typography/CTA patterns, and consistent design-system alignment across devices.
 - Integrated CMS-driven portfolio data and production assets for dynamic project listing/detail views, reusable data layers, semantic URLs, responsive images & SEO-friendly; implemented consultation workflows with Remix Actions, server-side validation, SMTP integration, spam protection, cross-browser validation, Git pull requests/code reviews & Vercel deployment.

The Aussie House (Live Client Project May-2026) — *Luxury Beach Homestay Platform*
Skills Used: Remix, React.js, TypeScript, SCSS, Responsive Design, Performance Optimization, Lazy Loading, Core Web Vitals

GitHub | Live Demo

- Developed and redesigned production-ready Home, About Us, Gallery page experiences for an Australian-themed luxury beach homestay platform, using Remix, React.js, TypeScript, and SCSS Modules, implementing responsive galleries, lightbox navigation, hero video sections, custom SVGs, interactive modals, and cross-device UI experiences.
- Optimized 57 media assets through lazy loading, WebP conversion, async loading, GPU compositing, and CLS prevention, reducing gallery payload from 14.76 MB to 5 MB (66%) and hero video size from 11.34 MB to 2.11 MB (81%), improving Core Web Vitals, rendering performance, and user experience.

NemSchools Web UI (Live Client Project Mar-2026) — *Educational Technology Platform*
Skills Used: Remix SSR, React.js, TypeScript, Strapi CMS, REST APIs, Nodemailer, SCSS Modules

GitHub | Live Demo

- Developed and enhanced production-grade Admission, Gallery, News, Career, Contact, and Footer modules using Remix SSR, React.js, TypeScript, Strapi CMS, and REST APIs, implementing reusable components, dynamic forms, client-specific features, and SEO-friendly interfaces.
- Engineered responsive, performance-focused experiences across Development, UAT, and Production using server-side rendering, dynamic routing, lazy loading, SMTP workflows, accessibility improvements & cross-device compatibility optimization.

Gaming BetWallet Dashboard (2025) — *Fintech Gateway*
HTML5, CSS3, JavaScript/jQuery, Responsive Design, Mobile-First Design, Fintech UI/UX

GitHub | Live Demo

- Engineered a responsive, mobile-first fintech deposit dashboard supporting UPI, digital wallets, debit/credit cards, net banking, and bank transfer workflows, focusing on intuitive navigation, payment-flow usability, and conversion-oriented UI/UX.

EDUCATION & CERTIFICATIONS

Round Logics (Core Compact)
MERN Full-Stack Developer Certification

Chennai, TN, India
Dec 2024 – June 2025

- Completed 6 months of hands-on training covering full-stack development, modern JavaScript (ES6+), responsive frontend development, REST APIs, and application architecture.
- **Credential:** corecompact.com

Bharathiar University (Sri Krishna Arts and Science College - Autonomous)
MSW, HR & Psychology | CGPA: 7.20

Coimbatore, TN | India
Jun 2021 – Aug 2023

Bharathiar University (NGM College - Autonomous)
B.A. Economics | CGPA: 7.00

Pollachi, TN | India
Jun 2018 - May 2021

TECHNICAL SKILLS

Frontend & Frameworks	Backend & Integration	UI/UX & Design	Tools, Quality & DevOps
• HTML5 & CSS3 • JavaScript (ES6+) • React.js • TypeScript • Redux Toolkit • React Router • Remix SSR • SCSS Modules • Tailwind CSS • shaden/ui • GSAP & ScrollTrigger	• Node.js • Express.js • MongoDB • Mongoose • REST APIs • Axios • JWT Authentication • Strapi CMS	• Figma • Wireframing & Prototyping • User Flow Design • Interaction Design • Information Architecture • Design Systems • Visual Hierarchy • Typography	• Git & GitHub • GitHub Actions (CI/CD) • Postman • Jira • Vite • PM2 • Vercel & Render • Environment Configuration • Core Web Vitals • WCAG Accessibility • SEO Optimization • Browser Compatibility • Responsive & Mobile-First Design • Agile/Scrum
